

# DESIGNED FOR PRECISE DIAGNOSIS AND EFFORTLESS DRY EYE ASSESSMENT

**Cornea**  
**550**

**NEW  
Software**

Cornea 550 is the turnkey solution for dry eye analysis, diagnosis, and management:

- Blue and white light image capture allowing real-time observation of the tear film clearance
- Non-invasive measurement of the tear film break-up time and the anterior segment (pictures and videos)
- Meibography with color scale enabling evaluation of gland loss
- New software including OSDI questionnaire and providing one graphical summary report
